Optimal Blending with TruFlow® blades

The four TruFlow® stainless steel blades are purposely designed to create a powerful swirl effect that optimizes blending and brings out the best of your ingredients.

500W powerful motor

The powerful motor makes blending of delicate recipes, tough ingredients and ice crushing easy – resulting in recipes that are smooth and delicious.

Multiple speed and pulse function

Get the best out of each and every recipe by choosing the optimal power from 2 variable speeds and pulse function - giving you confidence and enjoyment in both the blending process and the result.

1.5 liter generous capacity

Blend delicious healthy smoothies and desserts for the whole family, or prepare big batches to freeze and enjoy later, thanks to the generous 1.5 liter glass jar.

Dishwasher safe for easy cleaning

Both the jar and stainless steel blades are dishwasher-safe. The blades are also easily detachable, making cleaning a lot easier and saving you time.
